An enriching retirement lifestyle starts here

At Jemalong, we're building a retirement living community with the emphasis on the living. It's all about creating a friendly and supportive environment, where there's always someone to share a coffee with, where your family will love dropping in, or where your neighbours might just become new friends. Because we know that sometimes little encounters can last a lifetime.

A new friendship formed

Being part of a community is really what retirement living is all about. It's that feeling you have when you exchange a friendly good morning with neighbours as you set off for a walk through the Forbes countryside. This lovely retirement village will offer 19 two and three bedroom residences all with manageable gardens, spacious interiors and a garage to house your car. There will be a community hub for group activities and social gatherings which will help foster the friendly village atmosphere.

They say the kitchen is the heart of the home

It's the natural place for people to gather and chat while the kettle boils or you're making a sandwich. Here, your kitchen is connected to the open-plan living space to encourage these relaxed encounters. It also has plentiful storage to keep the clutter under control and stainless steel appliances for stylish efficiency.
